How to shop for free from CVS?

CVS is the second largest pharmacy chain in America after Walgreens.

It is a store where you can meet your cosmetics and all kinds of household needs, except for pharmaceutical and medical products, but the label prices are more expensive than other markets. However, when you use a coupon on top of their weekly discounts, it is possible to buy the products you want at prices you cannot find anywhere else. That's why CVS is one of the most favorite stores of coupon users in America.

How to shop for free at Target supermarkets

If you want to meet your needs at a low cost and you have the time, here are the things to do and keep in mind;

1-It is to get a completely free "CVS extra care" card from the cashier. With every shopping you make with this, points and money are accumulated in your account and you can use this money no matter what you buy in your next shopping.

2- If you have your CVS extra care card read into the coupon machine every time you enter the store, it will give you the coupons of that week. In fact, this machine often allows you to scan your card twice and gives the same coupon twice.

3- Get the CVS brochure showing the discounts for that week right at the entrance of the door.

4- For example; If the price tag of a product has the phrase "5 extra care bucks if you spend 10 dollars", the coupon you get when you scan your CVS card, or even the coupon you download from the Sunday newspaper or any online site such as www.coupons.com (you can print 2 of the same coupon from a computer). If you use it, you get the products for free and earn a few dollars to use on your next purchase. Note that the CVS coupon expires in 30 days.

5-If a product has a buy-one-free campaign that week and you have 2 coupons, remember that you can use both coupons even though you get one of the product for free.

6-If you have a buy-one-get-one-free coupon for the product with a buy-one-free campaign, remember that you will get both products for free, and keep in mind that this will only be valid for CVS.

7-You can find separate coupons in each section of the store. You can even use coupons (manufacturer coupon or CVS coupon) on clearance products that they are trying to finish.

8-If you are a new CVS customer, if you want to use all these coupons and earn money after purchasing the product, first buy only one product. Over time, you will understand the system better and meet the needs of your home at incredible prices.

9- If you have your CVS card read on your birthday, you will receive special coupons.

10-If you register with your e-mail address, they will send you extra coupons with percentage discounts or price discounts once or several times in certain periods of the month.

11-If you are lucky, a coupon may come after your receipt at the end of your shopping.

12- If you use your earned points (extrabucks) by purchasing another product that also offers extrabucks, you will be using your money and coupons wisely. Thus, you will not have much money in your pocket. However, if you use your points on a product that does not give points, you will earn CVS.

13-If a product you want to buy that week has sold out quickly and is not on the shelves, you can get a "rain check" from the cash register. Rain check means that when the product comes to the store, you can benefit from the same campaign whenever you want.

The "Rain check" opportunity is valid at all stores that offer weekly discounts. Its duration is 1 month. It will be canceled if not used within a month. In CVS, however, these checks do not have an expiration date. You can use it after three years or after a month. You can also redeem these checks at any CVS store.

14- In addition, by typing "coupon" in the search section of CVS's own website <http://www.coupons.com/coupons/?pid=14415&nid=10&zid=oj97> , you can combine the coupons with the CVS logo with the coupons of the manufacturer company to get more discounts. .

15-Gives a \$3 gift coupon to those who download the CVS application to their phone.

You can follow the <http://www.iheartCVS.com/?m=1> site to catch CVS discounts .

For more detailed information about CVS' coupon rules; You can refer to <http://www.iheartCVS.com/2011/09/official-CVS-coupon-policy.html?m=1> .

Note that couponers in America get their cleaning supplies, paper towels and assortment, and diapers for free from CVS, and they guarantee you'll never pay for them once you find out.
